

FOURTH QUARTER 2016 EARNINGS PRESENTATION

JANUARY 19, 2017

FORWARD-LOOKING STATEMENTS

Important note regarding forward-looking statements:

Statements made in this presentation which are not purely historical are forward-looking statements, as defined in the Private Securities Litigation Reform Act of 1995. This includes any statements regarding management's plans, objectives, or goals for future operations, products or services, and forecasts of its revenues, earnings, or other measures of performance. Such forward-looking statements may be identified by the use of words such as "believe," "expect," "anticipate," "plan," "estimate," "should," "will," "intend," "outlook" or similar expressions. Forward-looking statements are based on current management expectations and, by their nature, are subject to risks and uncertainties. Actual results may differ materially from those contained in the forward-looking statements. Factors which may cause actual results to differ materially from those contained in such forward-looking statements include those identified in the Company's most recent Form 10-K and subsequent SEC filings. Such factors are incorporated herein by reference.

2016 HIGHLIGHTS

2016: Net income available to common equity of \$191 million, or \$1.26 per common share

Growing Revenues

Stabilizing Margin

Improving Efficiency

Expanding Bottom Line

Balance Sheet Management

- Loans reached \$20 billion at year end; full year margin of 2.80%
- Average loans were up \$1.4 billion, or 8% from 2015
- Average deposits were up \$1.1 billion, or 6% from 2015

Expense Management

- Efficiency ratio improved for the fifth consecutive year
- Expenses in-line with guidance, excluding severance

Fee Businesses

- Capital markets increased significantly year over year
- Mortgage banking increased 18% year over year
- Insurance commissions increased 7% year over year

Capital Management

- Return on average common equity Tier 1 (CET1) of 9.9%
- Dividend payout ratio of 35%
- CET1 ratio of 9.5% at year end

4Q 2016: Net income available to common equity of \$52 million, or \$0.34 per common share

LOAN PORTFOLIO – ANNUAL TRENDS

Average Annual Loans

(\$ in billions)

Yield on Interest-earning Assets

Cost of Interest-bearing Liabilities

Net Interest Income & Net Interest Margin

NONINTEREST INCOME – ANNUAL TRENDS

(\$ IN MILLIONS)

¹ – Fee-based revenue = A non-GAAP financial measure, is the sum of trust service fees, service charges on deposit accounts, card-based and other nondeposit fees, insurance commissions, and brokerage and annuity commissions. Please refer to the appendix for a reconciliation of fee-based revenue to total noninterest income.

NONINTEREST INCOME – QUARTERLY TRENDS

(\$ IN MILLIONS)

■ Fee-based revenue¹

Insurance Commissions

¹ – Fee-based revenue = A non-GAAP financial measure, is the sum of trust service fees, service charges on deposit accounts, card-based and other nondeposit fees, insurance commissions, and brokerage and annuity commissions. Please refer to the appendix for a reconciliation of fee-based revenue to total noninterest income.

NONINTEREST EXPENSE – ANNUAL TRENDS

(\$ IN MILLIONS)

Technology and Equipment

Efficiency Ratio¹

¹ – The efficiency ratio as defined by the Federal Reserve guidance is noninterest expense (which includes the provision for unfunded commitments) divided by the sum of net interest income plus noninterest income, excluding investment securities gains / losses, net. The fully tax-equivalent efficiency ratio, which is a non-GAAP financial measure, is noninterest expense (which includes the provision for unfunded commitments), excluding other intangible amortization, divided by the sum of fully tax-equivalent net interest income plus noninterest income, excluding investment securities gains / losses, net. Please refer to the appendix for a reconciliation of the Federal Reserve efficiency ratio to the fully tax-equivalent efficiency ratio.

NONINTEREST EXPENSE – QUARTERLY TRENDS

(\$ IN MILLIONS)

FTE¹ Trend

¹ – FTE = Average full time equivalent employee

2017 OUTLOOK

This outlook reflects a similar economy to what we experienced in 2016 and includes our expectation of two interest rate increases in 2017. It does not reflect any changes to the regulatory environment or to corporate tax rates. We may adjust our outlook if, and when, we have more clarity on any one, or more, of these factors.

Balance Sheet Management

- Mid-to-high single digit annual average loan growth
- Maintain Loan to Deposit ratio under 100%
- Stable to improving NIM trend, assuming additional Federal Reserve action to raise rates

Fee Businesses

- Improving fee-based and capital markets revenues
- Declining mortgage banking
- Increasing tax credit investment activity

Expense Management

- Approximately 1% higher than the prior year
- Continued improvement to our efficiency ratio

Capital & Credit Management

- Continue to follow stated corporate priorities for capital deployment
- Expected to adjust with changes to risk grade, other indications of credit quality, and loan volume

RECONCILIATION AND DEFINITIONS OF NON-GAAP ITEMS

Efficiency Ratio	2012	2013	2014	2015	2016
Federal Reserve efficiency ratio	73.21%	71.14%	70.29%	69.96%	66.95%
Fully tax-equivalent adjustment	(1.59)	(1.45)	(1.35)	(1.41)	(1.29)
Other intangible amortization	(0.44)	(0.42)	(0.39)	(0.31)	(0.20)
Fully tax-equivalent efficiency ratio	71.18%	69.27%	68.55%	68.24%	65.46%

The efficiency ratio as defined by the Federal Reserve guidance is noninterest expense (which includes the provision for unfunded commitments) divided by the sum of net interest income plus noninterest income, excluding investment securities gains / losses, net. The fully tax-equivalent efficiency ratio, which is a non-GAAP financial measure, is noninterest expense (which includes the provision for unfunded commitments), excluding other intangible amortization, divided by the sum of fully tax-equivalent net interest income plus noninterest income, excluding investment securities gains / losses, net. Management believes the fully tax-equivalent efficiency ratio, which adjusts net interest income for the tax-favored status of certain loans and investment securities, to be the preferred industry measurement as it enhances the comparability of net interest income arising from taxable and tax-exempt sources.

Fee-based Revenue (\$ millions)	2012	2013	2014	2015	2016	4Q 2015	1Q 2016	2Q 2016	3Q 2016	4Q 2016
